From *Lab Bench* to Industry

HPLC & LC-MS Skills Hiring Managers Actually Want

DATE & TIME

Thursday, June 4
7:00 – 10:00 pm
Toronto

FORMAT

Live & Interactive
Google Meet

INVESTMENT

9 USD

AVAILABILITY

Limited seats
Register early

WHO THIS IS FOR

You've applied to HPLC or LC-MS roles and wondered why you're not getting callbacks. In three hours, we close the gap — covering what hiring managers actually look for, how academic method work differs from industry, and how to align your résumé with real job descriptions.

WHAT WE COVER

- ✓ What hiring managers actually look for in entry-level analytical roles
- ✓ The real difference between academic method work and industry validation
- ✓ How to align your résumé language with industry job descriptions
- ✓ Day-to-day reality of HPLC and LC-MS roles before you accept an offer

• Limited seats — fills fast

FROM MAY'S ATTENDEES

I got better clarity about the work each role does in the industry. This would help me align my resume better with the job description while applying to jobs in future.

— Shagun Arora

Now I understand the different job categories I could go for, and what really goes on behind the scenes in the chemistry industry.

— Katayoun Etemadi
